Key features

Money-in

Local receiving accounts – Get paid in USD, EUR, GBP, JPY, AUD, CAD, HKD, SGD via local bank transfers to your accounts in North America, Europe, Australia and Asia. All without opening local bank accounts.

Payment options – Send payment requests with multiple payment options, including via credit card, ACH bank debit, local bank transfer or transfer from a Payoneer account.

Wire – Share your SWIFT code and get paid in USD, from any client, no matter where they are located.

Tracking tools – Send payment requests in advance, reminders and track your payment requests.

Money-out

Currencies management – Convert your funds to any currency hassle-free and start paying your contractors globally with their preferred currency.

Business payments – Pay your global contractors and employees directly to their bank accounts or transfer funds to their Payoneer accounts free of charge.

Cards – Get a commercial debit or digital purchasing mastercard and start spending online, at ATMs and at point-of-sale.

Withdrawal to bank – Withdraw your funds anytime to your local bank account.
